

# ENZO BOZZANI - SOFTWARE ENGINEER

São Paulo, Brazil • +55 (13) 99644-0301 • [bozzanienzo@gmail.com](mailto:bozzanienzo@gmail.com) • <https://www.linkedin.com/in/enzobozzani/>

## SUMMARY

---

Full-stack Software Engineer with experience in developing web applications, backend services, and AI-driven solutions. Proficient in Python and TypeScript/JavaScript across multiple frameworks, and highly adaptable to new technologies and stacks. Passionate about building impactful software, understanding both development logic and business objectives. Native Portuguese speaker, fluent in English.

## EXPERIENCE

---

IBM, São Paulo, SP, Brazil

08/2024 – Present

### Software Engineer Intern

- Software Engineer Intern at IBM Research, contributing to full-stack solutions supporting AI model development.
- Developed several software projects, building full-stack solutions to support and improve IBM AI models.
- Delivered cross-stack solutions by combining Python (back-end, LLM-powered solutions) and TypeScript (front-end and back-end), adapting to different frameworks and libraries to meet project requirements.
- Used containerization and serverless cloud solutions to deploy applications.

CAD FEI, São Bernardo do Campo, SP, Brazil

09/2023 – 07/2024

### FrontEnd Developer (Undergraduate Research)

- Developed FrontEnd of a complete web application for FEI University, enabling members of FEI to manage their academic career, handling documents and various information.
- Automated a complex process with great impact for the university.
- In the development of the application, the tech stack was composed by React, TypeScript, CSS, Vite.

## EDUCATION

---

University Center of FEI, São Bernardo do Campo, SP

2022 - Present

### Bachelor of Computer Science

- Awards: First place in University Center of FEI 2022 selection process.
- Comprehensive education in Computer Science, covering a wide range of topics in the field of technology.
- Relevant coursework: Algorithms (fundamentals, development, analysis and complexity), Data structures, Databases (fundamentals, SQL and NoSQL), Software Engineering, Operational Systems, Compilers, Distributed Systems, Artificial Intelligence, Software Tests and Simulation.
- Expected graduation on 12/2025.

## SKILLS & OTHER

---

Hard skills: HTML, CSS, SASS, SCSS, TailwindCSS, JavaScript, TypeScript, React, Next.js, SSR, Node.js, Express.js, NestJS, PostgreSQL, MySQL, MongoDB, Git, REST, Web API, Prisma, Stripe, Python, FastAPI, Web Sockets, RabbitMQ, Redis, Docker, Rancher, Containerization, Cloud solutions, IBM Cloud, Serverless, LLMs, AI.

Soft skills: Teamwork, Problem solving, Communication, Adaptability, Proactiveness, Self-learning.
